

Enterprise & Custom Pricing Sheet

Effective: June 2026

PLAN	LICENSE PRICE	PARALLEL STREAMS	INCLUDES
Basic	\$590 \$490	1 (sequential)	All migration modes, real-time monitoring, integrity check
Pro	\$2,390 \$1,990	Up to 4	Everything in Basic + scheduling, reports, precise (MD5) verification
Enterprise	\$11,990 \$9,990	Up to 16	Everything in Pro + file split migration, storage analysis

Launch pricing (17% OFF): All listed prices already reflect a 17% launch discount off standard list price. This is a one-time purchase, perpetual license — no subscription, no renewal fees.

Additional server instances: 1 license covers 1 server. If you need to deploy SyncData Guard on more than one server (e.g. multiple migration jobs running in parallel across different machines), each additional server instance is available at **50% off** the base license price shown above.

Custom / Multi-server Enterprise deployments: For TB-scale environments requiring multiple concurrent server instances (e.g. distributed migration across data centers), custom quotes are available. Please contact us with your environment details (number of servers, data volume, network topology) for a tailored quote.

ADD-ON	PRICE
Additional server instance	50% off base license
